S. S. S. Bulb Specialties

are the best obtainable. If we doubt their quality on arrival, they are not accepted.

Flowers are seldom better than their roots, and buildings seldom better than their foundations. S. S. S. & Co. have been selling better flower foundations for thirty-two years.

S. S. S. LILIES

If you do not buy price only—they are the cheapest—more flowers per bulb and less bulbs to throw away.

We appreciate an opportunity to quote quantity prices on anything in our line.

Read these excerpts from a few of our many repeaters:

The case of Erabu we bought from you last year produced the best Lilies we have ever seen. One plant bore forty-two flowers, the largest we have ever heard of, and over half the case averaged more than ten flowers. We did not lose one bulb in the case. Lest you forget, these were only 7-9s.

ROWDEN & MITCHELL, Wallingford, Conn.

I might add that the Harrisi bulbs are as fine as any I have ever grown. Thanking you for service.

ROBERT M. ROGERS, Wilmington, Del.

Our Harrisi Lilies during February and March turned out fine. Averaged five to ten blooms per bulb.

CHAS. M. MOSS, Spartansburg, S. C.

I have handled thousands of bulbs, but I never saw better than yours. If I had not loaded up before I saw yours, I assure you I would have sent you a fine order.

JOS. H. SWAUGER, Fossilville, Pa.

SINENSIS

A fine flower from clean stock. A Formosum type that grows and blooms evenly.

and all other varieties with prices on request.

ERABU

(F. O. B. New York or Chicago)

Far superior to its parent, Formosum, which it has almost entirely replaced.

PLANT STOCK

CARNATIONS, Rooted Cuttings

New varieties for December and later delivery.

$15.00 per 100, $125.00 per 1000

DEL RAY (Ed. Winkler, Boston). Ward color, production, size and bloom, keeping and blooming qualities all about the same as Matchless. Caught on the crest of Boston Ward toward Spring. If Mrs. C. W. Ward is not proving satisfactory try Del Ray. If it is, try Del Ray anyhow.

SPICY WHITE (Baur-Steinkamp). Purity of color and freedom of bloom of Harvester, plus a strong stem, more vigorous growth and a larger flower.

SALMON SPECTRUM (Baur-Steinkamp). A Spectrum with the color of Laddie. Roots as easily as Spectrum and produces as large a flower, with the same extraordinary keeping quality and freedom of bloom.

POTENTATE (Baur-Steinkamp). Pure. A splendid producer of good size. Has stems, calyces and all the other good qualities of a high-grade commercial Carnation. It gives a richness to vari-colored arrangements. Beautiful in combination with yellows, flesh pinks and other light colored flowers.

Prices on larger sizes on request.

For the past fifteen years, I have been growing Pansies from seed from all so-called Pansy specialties I could find, and I have never been satisfied with them. Florists Pansy Mixtures have mostly the best plants I have ever seen consistently for the past several years.

RICHARD MAHONY, Yonkers, N. Y.

I am glad to say that your Pansies brought nothing but compliments from my customers. They formed a veritable blanket of color.
